RAILROAD LINE AT BRENNER PASS BLASTED

Vital Link Considered German Highway for Defense to Peninsula Smashed

BY FLYING FORTRESSES

BY NOLAN NORDAARD
Allied Headquarters in North Africa, Sept. 3—(P)—U. S. Flying Fortresses knocked out the vital railroad line from the Brenner Pass into Italy—the German highway for defense of the Peninsula—yesterday in their deepest blow into Italy from North Africa. They blasted Bolzano, Trento and Bologna, and an official headquarters announcement today declared photographic reconnaissance showed "this main artery of German reinforcements which have been pouring into Italy is now cluttered with wreckage at least temporarily."

Most of the railway line was severed when bombs destroyed the railway bridge at Bolzano 35 miles south of Brenner Pass, and the railroad at Trento 30 miles farther south was cut by four direct hits.

Freight yards at Bologna 170 miles below the pass were torn by greta fires and explosions. Bologna is an important rail and highway junction near the center of the northern neck of the Italian peninsula.

American Mitchells blasted the railroads near Canello northeast of Naples, and the official report asserted that "when the bombing was over, all lines to Naples, Salerno, Torre Annunziata, Capua and Benevento had been blocked. Five sheds and 50 railway cars were destroyed in the yards and nine sheds were destroyed in the warehouse area."

Bomb Barrage On Northern France

London, Sept. 3—(P)—While Allied invasion forces stormed onto the Italian mainland, great fleets of United States heavy and medium bombers laid down a strong early morning bomb barrage on northern France today, it was announced. The preliminary American announcement of this morning's raids did not specify the targets, but a Rome broadcast earlier said Paris had been bombed.

In sun-darkening swarms, Flying Fortresses and swift Marauders swept across the channel under cover of swift-striking Thunderbolts.

London got a view of part of the returning formations, approximately 150 Fortresses, flying northward over the city as persons in the street stopped and cheered. The Paris radio said in a broadcast heard by the Associated Press that an "extensive raid" was made on the Paris region, adding that the main target was the left bank of the Seine.

Troop-landing Craft and Amphibious Jeeps, Sweeping Across Strait Under Cover of Moonless Night, Land on Beaches Opposite Messina

AMERICAN 7TH ARMY BEING HELD IN RESERVE

By ROGER GREENE
Associated Press War Editor

British 8th Army troops stormed into Italy from Sicily today, opening the long-awaited invasion of Hitler's European fortress, and a German broadcast indicated that the Allies had occupied both Scilla and Reggio Calabria on the toe of the Italian boot.

The two cities are on the Italian west coast, directly across the Strait from Messina.

The Nazi radio said the invasion forces had penetrated as far as Scilla on the coast road, and another tank-led column had thrust eastward from Reggio Calabria.

Dispatches said that more than 10 hours after British Tommies and Canadians swarmed across Messina Straits in a series of pre-dawn landings they were locked in fierce battle with the enemy.

Algiers broadcast said the Allies "have established a bridgehead on the Calabrian coast," but dispatches from the Allied headquarters spoke several times of "the landings"—indicating that the invaders had struck at more than one point.

The assault was the first of several expected invasions of the continent.

Berlin said "heavy fighting is in progress" and predicted swift follow-up blows by the Americans.

An Algiers broadcast, recorded at 8 a. m., Eastern War Time, said British troops swept ashore past knocked-out pillboxes, coastal batteries and road blocks, and were advancing through lemon and olive groves and minefields toward a 6,000-foot range of mountains.

In London, Gen. Sir Robert Gordon-Finlayson declared "we can be quite sure that the 7th U. S. army"—which was not involved in the original attack—"is destined by General Eisenhower to land somewhere in Italy very soon."

"The 7th army will have been assigned a very important task." Italian headquarters said the Allies had begun operations against the Calabrian coast, on the toe of the Italian boot, "on a vast scale."

An official Allied spokesman said Gen. Sir Bernard L. Montgomery's veterans were engaged in "heavy fighting."

There was no report of any invasion spearhead having been thrown back after the first landings, which came at 4:30 a. m. (10:30 p. m., Thursday, Eastern War Time).

"Allied forces under the command of General Eisenhower have continued their advance," said a bulletin from Allied headquarters. "British and Canadian troops of the 8th Army, supported by Allied sea and air power, attacked across the Strait of Messina early today and landed on the mainland of Italy."

Dispatches said crowded Allied invasion barges, troop-landing craft and amphibious jeeps, sweeping across the strait under cover of a moonless night, landed on the beaches opposite Messina.

The initial attack apparently struck in the vicinity of Reggio Calabria (Pop. 50,000), bomb-battered ferry terminus.

British and Canadian troops led the assault, while Lieut.-Gen. George S. Patton's American 7th Army, co-victors in the 38-day conquest of Sicily, was held in reserve.

Just before the attack, Gen. Dwight D. Eisenhower flew to Sicily for a final checkup with Gen. Montgomery and Gen. Sir Harold L. Alexander.

JAP AIRFORCE KNOCKED OUT IN NEW GUINEA

Liberators and Mitchells Find Only One Grounded Plane Among Their Targets

SALAMAUA ELIMINATED

Allied Headquarters in the Southwest Pacific, Sept. 3—(P)—The Allied campaign for north-eastern New Guinea appears, for the moment at least, to have knocked out the Japanese airforce from besieged Salamaua all the 550 miles to the Dutch New Guinea border.

In earlier stages of the Allied drive on Salamaua, Japanese planes raided forward mountain positions, ranged far to strike across the Owen Stanley mountains at Port Moresby and down the coast from Salamaua in the region of Buna.

Today's allied communiqué, reporting the wiping out of Japanese army headquarters, warehouses, fuel and ammunition stores in and around Madang, said the raiding Liberators and Mitchells found only one grounded enemy plane among targets for their more than 200 tons of bombs. Escorting fighters did not encounter an interceptor.

The Salamaua airfield, now within rifle range of Allied jungle fighters, is unserviceable to the enemy.

Encountering only anti-aircraft opposition, Tuesday's raiders in the Madang area skimmed the trees to pour 90,000 rounds of machine-gun and cannon fire into the be-

Exchange Ship Begins Heart-Tugging Trip

Washington, Sept. 3—(P)—Blazing with light and warning all corners of her course and position, the Swedish liner Gripsholm plowed toward India today with 1,500 Japanese nationals to be exchanged toward India today with 1,500 Japanese being brought by a Japanese ship.

In her holds the exchange ship, which made a similar voyage under safe conduct guarantees last year, carried 140,000 special food packages supplied by the United States government in a relief cargo valued by the Red Cross at \$1,500,000. Also aboard were medicines and other supplies specially needed by American war prisoners and civilian internees.

The heart-tugging voyage began from New York early yesterday after more than a year of negotiations through neutral sources.

Only after the Japanese ship has touched at its last port of call, said the state department, will the list of American repatriates be complete. After the next of kin have been notified, the list will be made public.

Girl May Lose Leg As Result Of Accident

Josephine Gifford, 17, of Smethport, a guest at the home of the Bob Rhodes family in Pleasant township, is in the Warren General Hospital with serious injuries resulting from an accident when she fell from a horse she was riding late this morning.

After falling from the horse the animal in some manner stepped upon her severing the femoral artery in the right leg and she lost considerable blood before Ted Huber, motored by about ten minutes later and rushed her to the hospital where the bleeding was stopped and two transfusions administered. It is possible she may have to submit to amputation of the limb.

The horse was captured later by John Lindsey.

OSBORN LOW BIDDER
Harrisburg, Sept. 3—(P)—H. T. Osborn and Company, of Franklin, today submitted a low bid of \$25,170 for construction of 0.03 of a mile of reinforced concrete and a concrete bridge over Lillybridge creek on U. S. Route 6 in Port Allegany borough, McKean county.

Sunspots Delay News Of Invasion of Italy

Allied Headquarters in North Africa, Sept. 3—(P)—Sunspots delayed accounts of the Allied landing today in Italy.

Wireless technicians attributed to the spots the faulty transmission from the Mediterranean area to the United States.

Dispatches piled up beside the operators as they tried various wave lengths in an effort to get through.

Citizens Are Urged to Learn Alert Signals

State Defense Council Says Residents Should Buckle Down, Memorize Them

APPROVED BY THE ARMY

Harrisburg, Sept. 3—(P)—Pennsylvania's much discussed air raid warning signals will work well, the State Council of Defense believes, if residents will only buckle down and learn what they mean.

Dr. Ralph Cooper Hutchison, director, said council members gave "lengthy and very sympathetic consideration" yesterday to complaints that the alarms cause confusion but decided "no major changes could be made without detracting from the essential workings of the whole system."

Alarms in effect in Pennsylvania have been approved by the army. They are:

A two-minute steady blast of whistles or sirens for the blue signal—meaning in the event of an actual raid that enemy planes are approaching. Building lights must go out but traffic may continue. A two-minute rising and falling sound for the red signal—an indication that hostile aircraft are overhead. All lights must be extinguished and all persons must seek shelter. A red warning usually is followed by a blue to signify the planes are leaving.

A 15-second steady siren or whistle signal for the white, or all clear—meaning the danger is over. Conditions return to normal. A red signal may sound before a blue if time is short, or a blue, blue sequence may be followed by another blue to indicate the (Turn to Page Eleven)

Third of Nipponese Shipping Destroyed

Washington, Sept. 3—(P)—Secretary Knox announced today that one-third of Japan's total merchant shipping, approximately 2,500,000 tons, has been destroyed.

The navy chief declared this destruction of one of Japan's most vital war resources was chiefly accomplished by American submarines, although all United Nations sea and air forces have participated in the sinkings.

Knox agreed with a questioner at his press conference that the enemy's loss of cargo tonnage was impairing the ability of the Japanese to exploit profitably their rich territories in the southwest Pacific.

Sinkwich Is Found Physically Unfit

Parris Island S. C., Sept. 3—(P)—Frankie Sinkwich will be honorably discharged from the Marine Corps Sept. 11 "because he is physically" unqualified for officers candidate class," the Marine Corps announced today.

Official confirmation of repeated previous reports that the All-American football player would be surveyed out of the Marines for physical disabilities was made by Captain Tim J. Sanders, post public relations officer.

Sinkwich, who captained the University of Georgia's Rose Bowl championship team in 1942, and who made All-America honors both in 1941 and 1942, is expected to sign with the Detroit Lions of the National Professional Football League for play this season.

CIVIL WAR VET DIES
Wellsville, Sept. 3—(P)—The body of Eugene H. Stone, 102, last surviving Tioga county Civil War veteran, was returned here today from the Soldier's Facility, Bath, N. Y., where Stone died yesterday. He was a half-brother of William A. Stone, one-time Pennsylvania governor.

FOUR-PRONG DRIVE ON JAPS SEEN POSSIBLE

Raid on Marcus Island Hints at Mighty Operations to Come in the Near Future

'ATTACK ONLY A TOKEN'

By JOHN M. HIGHTOWER
Washington, Sept. 3—(P)—A promise of devastating naval and aerial blows on the Japanese homeland indicated today that the United States fleet, with its growing armada of carrier-borne planes, is preparing swiftly to join in a four-pronged offensive in Asia and the Pacific this fall.

The Sept. 1 raid on Marcus Island only 1,200 miles from Tokyo, hinted at mighty operations to come, and this portent has now been translated into plain words by Vice Admiral John S. McCain, deputy chief of naval operations for air.

"The attack on Marcus is only a token," he said in a radio broadcast last night. "Such blows will increase in tempo, in power and in fury until finally for Japan—in continuous attack—we lay waste in blood and ashes the home islands of this treacherous, brutal and savage people."

McCain reported that aircraft carrier plane strength is now double what it was at the start of the war, which would put it at about 1,100 planes, and "is rapidly growing." He added that sea and air forces are being coordinated in strength so great "that we eventually will sink the major part of Japan's fleet."

Conservation Of Light and Power Needed

Washington, Sept. 3—(P)—The public was warned today that electric power, fuel, water, gas, telephone and telegraph facilities, are being strained too far. A drive will start about Sept. 15 toward voluntary conservation.

The government and utilities will put on the campaign designed, a War Production Board (WPB) spokesman said, to avert hardship. Some industrial areas already have been hit by shortages of these public services.

Officials said a nation-wide dimout to save electricity and other government controls—such as the rationing of coal—might become necessary unless householders are persuaded of the need for strict conservation.

The threat of a recurrence of gas shortages which occurred in many localities last year during cold snaps has been countered with the laying of several new pipelines, but the spokesman said mounting war production demands for this type of fuel might again cause falling pressure in gas lines, and cold homes.

POLICE OBSTETRICIAN DELIVERS 16TH BABE

Philadelphia, Sept. 3—(P)—Patrolman Samuel Van Gelder, the police department's best known amateur obstetrician, delivered another baby today—the 16th of his career.

The child, a 5½ pound girl, was born in a Market street rooming house to Mrs. Mary Bradley, 16-year-old wife of a sailor who left the country on active duty early this year.

The police department sent Van Gelder, a former medical student, when Mrs. Bradley's neighbors telephoned that no doctor could be reached and that Mrs. Bradley could not be moved to a hospital.

NAZIS FALLING BACK BEFORE SOVIET DRIVE

Warren county's two draft boards were asked to send to Erie this week the largest contingents since the Selective Service Act became effective. Nearly 300 men went through the examination and induction center on Monday and Tuesday.

Five Red Armies Engaged in Gigantic Campaign Which Threatens the Entire Eastern Front

ENEMY IS RETREATING

London, Sept. 3—(P)—The German radio announced today that the Soviet army had launched a grand offensive in the central Donets Basin area of south Russia early this morning.

The broadcast, recorded by The Associated Press, failed to locate more precisely the reported push. The Russians have been driving forward in this area for several days and yesterday announced important gains, including the capture of the cities of Voroshilovsk, Slavyanosebsk and Lisichansk.

The German announcement said that "since the early hour of today the expected Russian attack in the central Donets has been in full swing. The Russians employed hundreds of heavy artillery batteries and fighter formations according to the principles of their well known attrition tactics. There are as yet no further details about the course of this new large-scale action."

The Germans meanwhile fell back before other Soviet drives that cut the main Nazi rail link between the central and southern sectors 150 miles from Kiev and crashed into the Smolensk defense perimeter for a gain of six miles.

The Donets Basin drive yielded the cities of Voroshilovsk, Slavyanosebsk and Lisichansk, while Budenokva, 20-miles from Mariupol, fell to the Red army troops in their push along the rim of the Sea of Azov, the communiqué said. The Russian bulletin, which was (Turn to Page Eleven)

Ex-Chairman Of Turnpike Group Is Dead

Harrisburg, Sept. 3—(P)—Walter A. Jones, former chairman of the Pennsylvania Turnpike Commission which constructed the \$70,000,000 express toll highway across Pennsylvania, died today at his home in Washington, D. C. He was 68.

The turnpike commission was advised of Jones' death in a telephone call from the family home at Washington. Funeral services will be held at Washington Sunday with burial at Canton, Ohio.

Jones died three days after his resignation as a member of the Turnpike Commission became effective. He was chairman of the commission from its creation in 1937 until a year ago when he resigned the chairmanship because of ill health but retained membership on the commission.

He submitted his resignation as a member to Governor Martin several months ago, effective September 1, and the chief executive named James F. Torrance, former Republican state chairman as his successor.

HURT BY RACE HORSE

YOUR BLOOD IS IN SICILY

A letter from a field hospital in Sicily states that doctors there report plasma to be the outstanding medical discovery of this war. It continued: "So I beg you folks back home to keep on giving your blood. Doctors say the plasma is absolutely magical and that scores of thousands who died in the last war could have been saved by it. Thousands in this war have already been saved by it. Keep telling them back home."

MEN of the Armed Forces! A distinctive military portrait is the "tops" gift for the folks back home. Every Smith portrait is as good as we can make it. They're not expensive either.

Interesting Letter Tells About Africa

Interesting information concerning experiences men and women in the armed services are having in North Africa is contained in a letter just received from Lieut. Emerson Baxter, son of Mr. and Mrs. Harry R. Baxter, West street, some excerpts from which follows: "I spent seven nights in North Africa after landing there in a shuttle-raid. It was in a beautiful but stinking hot town. If I spent much more time there, I'd be able to speak a smattering of French, Italian and Arabic. I picked up enough in a week to carry on a fairly intelligent conversation, as long as they stuck to the words I knew. x x x "Africa—the part I saw—was mostly dust, sand and insects. Sunday was the Arabian Market day, so I went to the market. What a smelly affair, but I enjoyed it. "The reason I learned a little Italian is because of the fact that they had some Italian prisoners on the base where we landed. I got a few things from them, such as coins and money. I even got an Italian soldiers overseas cap." The letter reveals that Lieut. Baxter took part in a shuttle-raid about August 17 and was there for about seven days before returning to England.

Warren County Treasurer

He saved electrification for the rural communities by defeating House Bill 809. This would have made the Electric Cooperative so expensive that the 170 miles of wire would have become a complete loss, and the 501 homes serviced by the wires would have had thousands of dollars' worth of useless electric farm and household equipment left on their hands.

He stopped Senate Bill 315, which would have necessitated an increase in taxes in many Warren County townships in order to meet an increased cost in tuition for high school pupils.

He helped obtain a substantial pay raise for the teachers, at no additional cost to Warren County residents.

He served the State well as its Banking Committee Chairman in the House of Representatives for two sessions.

He has served you well every time you have chosen him to represent you in public office.

Attendance Officer Gives Working Rule

Students who have not yet reached their 17th birthday must reenter school next week unless they have been graduated from high school, according to Miss Mary M. Schueltz, attendance officer of the Warren public schools. Miss Schueltz further states that with increased demands for workers, many boys and girls under 17 years of age are requesting full-time work permits. Since the law in Pennsylvania has not been changed, such work permits cannot be issued. It is possible, the school officer states, for pupils attending school to secure part-time work permits if they are 15 years or over, whereby they may work any evening after school or on Saturday.

CLARENDON

Clarendon—Mrs. Edith Seavy is spending some time visiting relatives and friends in Meadville. Mrs. Mary Campbell and Mrs. Ruth McCool attended the Special Mission Day program at Chautauqua on Wednesday.

Ned Perry, of Kokomo, Ind., visited his parents, Mr. and Mrs. S. G. Perry, last week.

A large crowd attended the flower and vegetable show held in the local school building Saturday evening. There were many fine exhibits of both flowers and vegetables and those who did not visit it missed seeing a very fine display.

On Thursday evening the "Willie Workers" Sunday school class of the Evangelical church held a picnic at the home of Mr. Hetrick. A delicious dinner was enjoyed and a business meeting held, at which the following officers were elected to serve for the coming year: President, Blanche Fredericks; vice president, Betty Seavy; secretary, Marie Crocker; treasurer, Gertrude Benson. Mrs. Armagost was re-elected teacher. The next meeting will be held the last Friday in September at the home of Mrs. Carrie Armagost.

The local grade school will open on Tuesday, September 7.

Margaret Anne Seavy has returned to her home in Cranford, N. J., after having spent the past few weeks visiting at the home of Mr. and Mrs. George Seavy.

The Thrifty Club of the Evangelical church held its regular meeting last Thursday evening at the home of Mrs. Arch Fredericks.

Mrs. Marie Crocker has returned home after spending a few days visiting her daughter Margaret in Greenville.

The Evangelical church is undergoing considerable remodeling at the present time and will be much improved when finished.

The ladies of the Women's Society of Christian Service, with their husbands and friends, enjoyed a picnic dinner in the church parlors on Friday evening, following which a program consisting of several very fine readings by Fern Mostert, of Warren, and a lovely piano solo by Clara Nielsen were enjoyed.

The young folks of the Evangelical church held a camp fire gathering at the picnic grounds at George Seavy's on Sunday evening. A devotional period with songs and readings was held.

Swanson Wins Promotion As Naval Ensign

Word has been received from Florida of the promotion of William Swanson, son of Mr. and Mrs. F. L. Swanson, Pleasant township, from first class machinist's mate-aviation pilot to the rank of ensign in the United States Naval Reserves.

Ensign Swanson first learned to fly with "Ship King" at the Warren Airport in 1936, one of the few students who soloed at the local field. Later he joined the navy as apprentice seaman and after completion of his boot training entered the school for naval machinist's mate.

This study completed, he served on the USS Mustin before the war and also saw plenty of sea duty in both the Atlantic and Pacific after war was declared.

After approximately four and one-half years in the seaman branch, he was given the opportunity of applying for flight training, receiving this at Pensacola, Fla. Designated as an aviation pilot, he was assigned to Jacksonville Naval Air Base.

Since that time he has been assigned to the auxiliary field at Mayport, Fla. Friends here are joining in good wishes for continued success and congratulations on the commission earned "the hard way".

Rev. Norden Will Occupy Pulpit Here

Pastor P. E. Nordgren, of Kane, will begin his service as interim pastor at St. Paul's Lutheran church on Sunday, September 5. Mr. Nordgren retired this spring after a long ministry, the past 28 years of which were spent as pastor in Lowell, Mass.

Rev. and Mrs. Carl E. Anderson, who have been supplying the local charge since Rev. Bertil Edquist's resignation, left this week for their home in St. Peter, Minn.

The congregation recently voted to extend a call to Rev. Howard W. Lindstrom, of Cherokee, Iowa, to come to Warren.

Red Cross Work Notes

All VFW Auxiliary members are asked to keep in mind over Labor Day the fact that they are to turn out on Tuesday afternoon at Red Cross headquarters for the purpose of making surgical dressings.

They Are Saying:
about the Home Front Pledge
Campaign

"When Warren women learn how buying one peck of black-market potatoes or a dozen eggs over ceiling prices hinders the war effort... when they actually see how inflation is helped by every purchase at more than OPA ceiling prices, they will surely realize how each may help in a big way —by KEEPING THE HOME FRONT PLEDGE. We're on our honor to live up to it."

PLAN MEETING THURSDAY

Arrangements are being made for a meeting to be held in the Court House September 9th, when all of the Block Leaders of the city will assemble for discussion and presentation of plans for the coming War Loan Drive. There will be special speakers sent to the city by the State Committee and announcements of further details will be made next week.

The Price of Total War

When the Nazis retreated they stripped these Russian farmers of their food and possessions and burned their homes. Quantities of clothing, concentrated foods and medical supplies sent to the Soviet by the Russian War Relief, a member agency of the National War Fund, are helping to rehabilitate those caught in the tides of total war. A nation-wide drive to help in this great work will be held early in October. Warren county's drive will include funds for local agencies previously under the Community Chest, as well as for the National War Fund.

THE LONG NIGHT

By Eleanor Atterbury

Chapter 17

A FRAID to move lest some dislodged pebble, some snapping twig betray her presence, Bette crouched, breathless, eyes straining to see into the depths of that shadow into which he had disappeared. A moment later, her heart stopped again. A second figure moved silently along that trail below. This time she saw the man's face clearly.

The face she saw now might be a duplicate of the one she'd seen in Paul Porter's cabin only last night. A Japanese.

He too disappeared into the shadow.

Bette, her muscles crying for relief from the cramped position, straightened slowly. She glanced back up the precipitous trail. No escape that way. Nor over the steep bank just below. Her only chance lay in their passing by this little jut of cliff onto which she'd crawled the better to watch the strange movements of the motor boat. Screened from the trail by thick bushes, it was barely possible they wouldn't see her. In another ten minutes, it would be too dark. She lay down flat against the moist earth with a little prayer.

She heard the almost inaudible sound of his footsteps finally. Prone against the earth that was, in this fast-fading light, the same color as her coat, Bette peered from her hiding place down onto the trail passing only yards below. He came around a turn with suddenness that almost brought a cry from her lips and stood looking back down the trail, silent, screened by a tree's broad trunk. Bette watched him. He was too tall for a Japanese. He was broad-shouldered. He carried himself, even with this furtiveness, with a familiar well-controlled ease. She knew this man. She was sure of it.

BUT it couldn't be Scott MacQuaid. She wanted too much that it should be. It was too much to ask of luck or fate or whatever controlled these things.

Then the second man appeared. Farther down the trail. He had lost distance. The Japanese!

From the almost imperceptible

movement with which the tall man pulled himself still deeper into shadow, Bette was sure he was the pursued. That the stumpy, slant-eyed figure below was his pursuer.

She began to dare to believe it was Scott standing there less than twenty yards from her.

For an eternity in which she had every hope and then none at all, she watched them. Apparently weary, the Jap sat down, squatting in the center of the trail, his dark eyes searching the mountain-side above. She saw him unwrap a small packet of food, begin to eat it calmly his eyes still searching for trace of his quarry.

But when he settled himself as if to wait indefinitely, she realized their predicament—hers and the tall fugitive who shared her plight, unknowingly. With darkness settling there would be no chance for anyone on those curves in the trail above. One misstep would plunge you into eternity. And there were a thousand such missteps possible. Even by bright daylight, Bette had clung gratefully to protruding roots and branches while she stepped along the trail narrowed to inches and plunging hundreds of feet straight down the bank.

If his man waited for dawn to make his getaway up that mountain-side, the wily Jap could pick him off easily from any of dozens of points where the trail came out on the face of the cliff.

AS IF he too had begun to follow the Jap's reasoning, the tall figure on the trail below turned slowly, looked directly up at where Bette lay hidden.

Instantly her heart rose with renewed courage. Scott MacQuaid stood there almost within reach. Nothing would be impossible—now!

But first, she must find a way to let him know she was there. Bette, snatching at the first idea that popped into her head, inched forward carefully not to make the slightest tell-tale move to alarm their slant-eyed guard below. Then, pulling off the gold class ring she'd worn since the day she'd received her white nurse's cap, she tossed it into the trail where it clinked too slightly to attract the Jap, but loud enough

Lend Money to Uncle Sam By Purchasing Bonds During The Coming Third War Loan Drive

When residents of Warren County are asked to raise \$3,333,333.33 in War Bonds for the Third War Loan which begins September 1st, they are not being asked to give money to the government but to lend it at a substantial rate of interest.

"We are being asked to save because every dollar invested in War Bonds will come back to us, plus the interest, at a time when we may need it more than we do now," Drive Chairman Harry Conarro explained. He added in the Third War Loan the government offers a type of investment for every need and every size of pocketbook.

Following are the securities offered: Series E, United States War Savings Bonds—give the investor back \$4 for every \$3 invested, when the bond matures. The interest is 2 per cent a year compounded semiannually if held to maturity. It comes in denominations from \$25 to \$1,000 and costs 75 per cent of maturity value.

Also Series F which comes in denominations from \$25 to \$1,000 and Series G, in denominations from \$100 to \$10,000.

Treasury Bonds of 1964-1969 bearing 2 1/2 per cent interest—readily marketable, accepted as bank collateral, redeemable at par and accrued interest for the purpose of satisfying federal estate taxes dated September 15, 1943; due December 15, 1969. Denominations \$500 to \$10,000.

Other securities include Series C Savings Notes: 1/4 per cent Certificates of Indebtedness and 2 per cent Treasury Bonds of 1951-1953.

Tickets On Sale For Benefit Game Between Forge and Erie Gunners at Irvine, Sept. 12th

Tickets for the benefit game to be played Sunday, September 12, at Wilder Field between the Erie Gunners and National Forge, will be on sale by the time this write-up appears in the Times-Mirror, and all are asked to purchase. In so doing every fan will be doing his part in aiding the cause. Tickets will be plentiful and will be sold everywhere in Warren and in most places in the rural districts.

Again it is pointed out that the large guarantee and expenses will make necessary a large sale of tickets to assure the success of the benefit.

Fans are assured a bang-up game, with the greatest collection of semi-pro players out of Erie, Buffalo, Cleveland, DuBois, Meadville, competing against our own Forgers. The Erie Gunners are a paid team, and for this season get first call on new talent that looks good to them, since they are in a position to offer good players high salaries. They are confident they will be able to "take" the Forge this year.

The Forgers will be a little handicapped because of loss of some players. Pollock may or may not play, since he has joined up with the U. S. Army. The time of his induction, however, is not known. He would be greatly missed, since he is one of the top hitters and a great aid to the pitching staff, and in addition he can play any position excepting behind the plate. Forge will be well fortified in any event, with Creola, Swanson, J. Massa, Morrison, Gagliardi, Akley, Geigerich, Hines Bonavita and S. Massa.

Looks like Freddie Gagliardi will be the starting pitcher for the Forge, and his team mates are confident he has the stuff to set Erie down.

Forge will play the Jamestown Hope Windows at the State Hospital field next Wednesday evening at six o'clock. This game is being sponsored by the Forge players and the only method of securing funds to pay the guarantee will be by passing the hat. The boys are hoping they will not have to do down in their pockets for the amount, so why not make up a carload and go up. The state hospital has one of the finest fields in the section and a fast game is assured.

The Forge management is endeavoring to schedule a game for next Friday in order to keep in shape for the Gunners.

Still a Chance the Flatbush Gang May Finish in Second Place in the National League

BY JUDSON BAILEY
Associated Press Sports Writer

A few weeks ago when the Brooklyn Dodgers were in a state of turmoil they took a lot of ribbing about being bad ball club that might, and probably would, finish in the second division of the National League.

It seems only fair, therefore, to call attention to the fact that the Dodgers now are a very strong third place ball club. In spite of the fact that Branch Rickey said he did not want a second place ball club, and was solely interested in a pennant winner, there still is a chance that the Dodgers will finish second again.

When it became apparent that oldtimers like Buck Newsom, Dolph Canelli, Joe Medwick and Johnny Allen were not going to bring Brooklyn home in front, Rickey turned the roster inside out and brought in a gang of kids. The youngsters are doing all right.

Yesterday they beat the New York Giants 4-3 by scoring two runs in the eighth and another in the ninth and ran their current winning streak to six games. This lifted them within three games of second place besides providing a three-game cushion over the fourth-place Pittsburgh Pirates.

The star of the Dodgers' triumph was Luis Rodriguez Olmo, the Puerto Rican rookie, who has missed hitting in only a couple of games since joining the Dodgers some seven weeks ago. He started the eighth inning rally with a single and he hit another one-batter in the final frame to drive home the winning tally after two were out.

Cincinnati, meanwhile, was set down 3-1 by the Chicago Cubs with Hiram Bithorn pitching three-hit ball for his 17th triumph. Stan Hack helped him out with four of the eight hits allowed by Elmer Riddle, driving in two runs.

In the other National League encounter Boston nosed out the Philadelphia Phillies 3-2 with Elmer (Butch) Nieman, the clutch-hitting star of the Braves, hammering a triple with two on in the tenth to break up a pitching duel between Al Javery and Al Gerheuser.

In the American League Detroit downed the St. Louis Browns twice 5-4 and 8-5 and the Cleveland Indians stopped the Chicago White Sox 2-1.

At Cleveland both Orval Grove and Lefty Al Smith pitched five-hit ball, but the Indians clustered four of their five hits in the sixth inning to win.

Games With Youngville On Saturday and Erie Academy Labor Day to Open Season

If old Jupe Pluv behaves himself tomorrow there will be a goodly crowd out to see the Dragons get into action for the first time this season with the Youngville eleven. Youngville for many years has provided the opener for the Dragons and have always put up a good contest. This game will start at 2:30.

On Monday the annual game with the Erie Academy will attract. This will really be about the only excitement for the Labor Day holiday and there should be a huge crowd out. For many years the Academy team has played the Dragons as a warm-up for the Erie outfit. The Academy is just emerging from a period at the training camp where they have been under the watchful eye of a half dozen mentors and they will be in top shape. Warren's team has always gained much experience in their contest with the Erie squad and the game has proven most profitable for the local lads getting them into trim for the schedule of the season.

Managers of the Dragons this year are Dick Black, Tom Saracino and Frank Scalse and they are a busy trio getting things set for the two games over the next three days.

As a pivot around which the Dragons will revolve this year there are four lettermen back in the squad, Gus Arrigo, Charles McLean, Wayne Schmader and Gerald Vesling.

The football schedule has been issued for the season and it is now being distributed about town.

The officials for the Saturday game will be Art Brady, of Titusville; Bud Welles, of Oil City, and Monty Scott, of Burgettstown. For the Monday game they will be Clyde Moore and Sam Schettino, of Reynoldsville, and "Baldy" Carlson, of Ridgway.

Regarding the progress of the training of Academy, the Dispatch-Herald sport writer says:

Out of Camp Sherwin, W. Lake Rd., Coach L. C. Drake sent his Academy Lions through two tough drills Wednesday, stressing signals and timing. Ed Kuhn, with a boot of 59 yards, and Norm Boettger, with a kick of 58 yards, proved best in a punting contest for distance without judging the roll.

Kuhn then came through with a fine boot of 71 yards on the basis of including the roll, while George Hauman was next in line with a 69-yard slam. Jimmy Coyne and Vinc Jaworek did all right on an accuracy punting trial, Coyne kicking out of bounds in the six-yard line and Jaworek hitting the seven-yard stripe.

Art Schwindt, who has a good lead on the Academy quarterback job this coming season, directed the team well in yesterday afternoon's drill. This session was mainly devoted to scrimmages and calisthenics. Coyne, Hausman, Owen Kelly and Whipple went well in the ball-carrying department, all of them being former track stars and who give indication that the Lions this season will depend on plenty of speed.

Woman Hurt In Collision In Third Ave.

Mrs. Clyde Simonsen, 10 Russell street, was given emergency treatment at Warren General Hospital Thursday afternoon for a fractured right collar bone, received in an automobile accident which occurred about 1:25 p. m. at the Third Avenue and Water street intersection.

Mrs. Simonsen was a passenger in a Dodge sedan operated by Mrs. C. E. Drum, 503 West street, and going west from the bridge. As the car went through the intersection it was struck in the rear by another car, forced over the curb and completely turned around. Driver of the second machine was E. I. Glassman, Third street merchant, who told police officials his view was obstructed by a parked truck.

The driver of the truck, Roy W. Chelton, of R. D. 1, Ashville, N. Y., was arrested by police on two charges, that of parking on a bridge approach and obstructing the view so as to contribute to an accident and, secondly, for having no operator's license.

Damage to the Drum car amounted to about \$60, according to Lt. M. Evan's report and to the Glassman car, about \$40.

Only one of the unescorted Fortresses was missing in the 1500-mile roundtrip attack, called by headquarters today, "perhaps the best day the Fortresses from North Africa ever had."

It was one of the war's most spectacular raids, staged only a few hours before Allied troops began pouring into southern Italy.

led raised the possibility that further attacks on Hitler's "European fortress" were coming soon—perhaps in rapid succession.

These might be: At Sardinia and Corsica, stepping stones to southern France and the Rhone Valley invasion path to the heart of the continent; at Crete, in the eastern Mediterranean; or the Allies might turn the southern end of Italy into a base for a trans-Adriatic drive into the Balkans.

Perhaps significantly, in this connection, London censorship prevented speculation on further events in the Mediterranean theatre, even halting American correspondents' dispatches quoting speculation in London newspapers.

Dispatches said an armada of "many hundreds" of troop jammed ships and barges made up the attacking force. As they sped across the narrow Messina Straits, Allied long-range guns on the Sicilian coast laid down a terrific barrage in Axis defenses. Warships bombarded the beaches, blowing up barbed-wire entanglements and machine-gun posts, and a great swarm of American and RAF warplanes formed a protective cover overhead.

The invasion, the first time the Allies have set foot on European mainland soil in great force since the retreat from Greece in April, 1941, came just 19 days after the end of the Sicilian campaign and on the fourth anniversary of the day Great Britain declared war on Germany.

First announcement of the invasion came from Allied headquarters shortly after 7 a. m. today (1 a. m. Eastern War Time).

As the historic assault developed, Allied bombers smashing at German lines of reinforcement bombed bridges in the Brenner Pass which links Italy with Germany.

The Allied-controlled Algiers radio broadcast special appeals to the Italian people to welcome the Allies "as liberators in the same fashion their forefathers welcomed Garibaldi."

Dispatches from Gen. Eisenhower's headquarters said it was emphasized there that the attack was not to be regarded as a "second front" but rather as a continuation of the North African and Sicilian campaigns.

London said the invasion was not expected to satisfy the Russians fully in regard to their repeated demands for the opening of a new front in western Europe.

Officers Set Pedestrians A Good Example

One of the pastors of the city this morning gave some commendation where it was due to Lieut. Gordon Munn, of the police force. The pastor called attention to the fact that recently he watched Lieut. Munn approach a street intersection, while walking, and while others jumped the light and dodged between automobiles the officer waited until the light changed. A number of children watched and waited with the policeman until the light changed. It was a real example of how crossings should be made at intersections in traffic and was considered noteworthy.

Police were called to Onelda avenue last evening where Keith Smallman, 7, had been bitten by a fox. The animal had been chained up by J. R. Schwone, East Wayne street and it had broken its chain. The animal was captured by the police and returned to the owner with an admonition to get a heavier chain. The lad was not seriously hurt.

One of the trucks of the Postal Telegraph Company with a trailer loaded with poles stopped for the traffic light at Hickory street yesterday and a car driven by William J. Tingwall crashed into the poles. Both parties had insurance and the matter was adjusted. Damage amounted to about \$25.

A collision of cars at Third and Water streets was investigated yesterday afternoon and handled in a satisfactory manner. It was not serious.

And this coupled with finding a few doors unlocked, quieting barking dogs and settling a family squabble gave the cops another night.

For the next meeting patrons were asked to dress as farmers and farmers' wives or housewives and each to bring a display of some article of fruit, vegetables, flowers or fancywork to be auctioned later in the evening to raise funds for the service work.
